ABOUT US

KOMAN Sustainable Solutions, LLC is an SBA 8(a) certified Small Disadvantaged Business (SDB) general contractor committed to the safe and quality construction of projects that exceed client expectations. As a proud member of the esteemed KOMAN Family of Companies, under the Natives of Kodiak umbrella, we operate within two distinct sectors: Construction and Services. Our comprehensive suite of offerings makes KOMAN the ultimate destination for all project needs, embodying a 'one-stop shop' ethos.

As an ANC 8(a) entity, we possess the unique advantage of swiftly executing projects through direct award, offering a streamlined and cost-effective solution compared to traditional competitive acquisition methods. Notably, direct awards to ANC 8(a) participants are typically immune to protests, ensuring contracting officers a dependable and expedited project initiation process.

Our internal PMO training division supports staff development in everything from USACE processes, three-phase quality control, RMS, and scheduling as well as a multitude of additional critical training needs. Our experienced team adheres to federal contract responsibilities, including certified payroll, contract reporting, and data security practices and policies.

PROJECT EXPERIENCE

Rehabilitate Texas White House & Rehabilitate Hangar Building

 **Client:** National Park Service

 **Magnitude:** \$16.9M

 **Scope:** This project is for the National Park Service (NPS) and addresses maintenance/repair work, structural concerns, code deficiencies, and deterioration of historic features in the Texas White House, nearby communications buildings, and the surrounding site. The rehabilitation ensures the long-term integrity of this critical park resource and allows it to be reopened to the public. The scope of work includes repairing building envelopes, replacing outdated electrical, mechanical, HVAC, and alarm systems; and stabilizing the foundation.

B840 Belgium Beddown

 **Client:** USACE Los Angeles District

 **Magnitude:** \$15.1M

 **Scope:** This project for USACE Los Angeles District addresses demolition, renovation, replacement, alteration, and new infrastructure to support improvements to Building 840. The scope of work includes infrastructure updates to the HVAC, electrical, communications, fire protection, application of wall finishes and flooring, furnishings, along with modifications to the restrooms, to be ADA compliant. Additionally, a new design layout will convert a dedicated area into an accredited SAPF space to include intrusion detection and card access systems.

Renovate Building 255

 **Client:** USACE Fort Worth District

 **Magnitude:** \$33M

 **Scope:** This project for USACE Fort Worth District addresses demolition, renovation, replacement, alteration, and new infrastructure to support the renovation of Building 255. The scope of work includes complete kitchen and restroom renovation, thermal envelope improvements, replacement of utility connections for power, water, gas, sanitary sewer, and fire protection. In addition to a new basketball court and shade pavilion, exterior improvements consist of site utilities, parking lot resurface, restriping, paving, and landscaping.
